

## Recare Reminder for a Child

\_\_\_\_\_ 's appointment is

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_  
Day Date Time

At this time, we will thoroughly examine all hard and soft tissue for dental disease, check for proper growth and development, clean teeth and apply special fluoride. Remember, if sealants are in place, regular 6-month examinations are necessary for maintenance.

Through regular examinations, we can help your child become part of the cavity-free generation.

A change in appointments affects many people. If you cannot keep this appointment, please call us at least 24 hours prior so this time may be given to another patient. We look forward to seeing you and your child on the above date.

## Recare Reminder for an Adult

Your hygiene recare appointment is \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_  
Day Date Time

At this time, we will thoroughly examine all hard and soft tissue for dental disease and screen for oral cancer. Research has proven that untreated diseases of the mouth can negatively affect many other parts of the body. We want to be certain that no health problems arise from undiagnosed dental disease, and a regular, thorough examination is the way to do that.

Your teeth will feel better, and your smile will be more attractive after a thorough cleaning. Remember, with regular care, your teeth can last a lifetime.

When you are here, please be sure to inquire about our aesthetic services that can improve appearance dramatically. We can help you have a beautiful smile showing sparkling white teeth as well as a healthy mouth.

A change in appointments affects many people. If you cannot keep this appointment, please call 24 hours prior so this time may be given to another patient.
