

Teen-Aged Patient Survey

We appreciate your being one of our patients now, during your teen years. We look forward to “teen afternoons” in our practice because we know it will be a fun time when we can visit with some of our favorite patients.

In order to understand your needs and preferences, we’re asking you to share some of your ideas with us. Please tell us what you think by answering the questions below.

What would you like to see changed, added, or eliminated in the office?

What do you enjoy when you come for an appointment and want us to continue?

What would you like us to begin doing in order to make your appointments more comfortable and enjoyable?

Any other suggestions?

Thanks for being our patient. We enjoy seeing you at each appointment.
